KLUB7 is an artist collective representing a fresh, handcrafted style bringing urban and indoor landscapes to life. Bound together by their background in the Urban Art and Graffiti scene, the six KLUB-members Dani Daphne, Diskorobot, Kid Cash, Lowskii, Mike Okay and Otto Baum have been working together since 1998. Each of them developing their own trademark style ranging from illustration to typography and from handcrafted to editorial. KLUB7's free or commissioned artworks mostly emerge through a conceptual phase - studying materials, spaces, architectural conditions, deciding for a visual vocabulary interacting with the diverse environments -, followed by the artistic performance. Using chalk, pens, markers, brushes or cans on all kinds of surfaces aims to create the unique KLUB7-style hallmarked by colourful geometrical or organic forms, letterings, symbols and structures - either handcrafted or printed, one-off or reproducible. Due to their spontaneous approach to art, chalk is one of KLUB7's favourite utensils for quick and easy street-drawings exhibited both in the public sphere as well as in galleries.
